We offer a range of super silenced mobile tower lights with features including;

- 360 rotation
- Fully extending vertical hydraulic or manual mast for quick and easy change of light direction
- Vertical masts up to 9m
- High power Halogen light bulbs

# SOUND SYSTEM

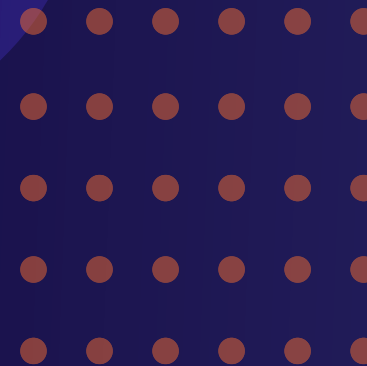

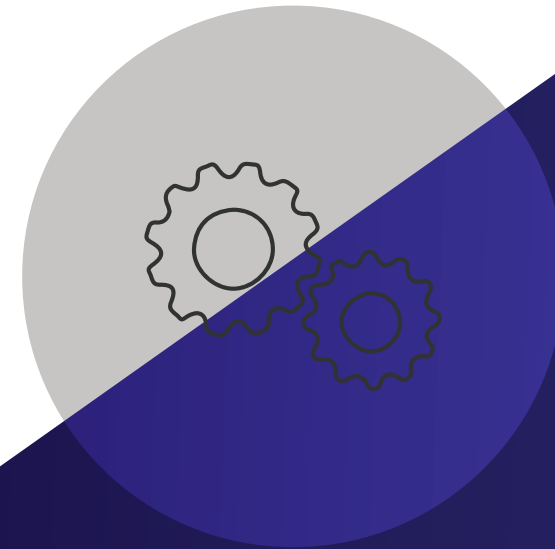

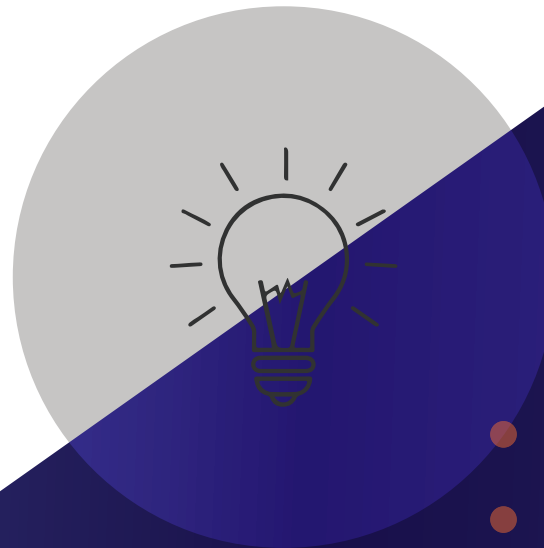

Ultimate combination of performance and portability. The sophisticated DSP technology enhances speaker performance and guarantees accurate and undistorted audio across the entire sound field. It is ideal as a PA speaker for live music and venues.

Speaker can be relied on for clear and rich sound and consistent performance. The Powercon connectors enable you to daisy chain with the other PA speakers. It also has one standard tripod speaker stand mount on the bottom and M8 inserts for suspended installation, which makes it versatile for both indoors and outdoors.

The Ultra-High Frequency (UHF) Microphone system minimizes radio frequency interference and noises generated by other electronic equipment and digital devices compared to a Very High Frequency (VHF) system. It provides cordless freedom, ease of use and 200 selectable UHF frequencies (530-580 MHz) for interference free operation.
